WELCOME ADDRESS

Dear Colleagues,

*I am delighted to welcome you to the third edition of **IBS DAYS 2022**.*

With this meeting, we would like to provide current views and a look to the future on the rapidly advancing field of IBS. We have prepared an exciting program including epidemiology, the role of genetic factors, diet, microbiota, inflammation and infection, diagnosis and biomarkers, as well as current and future therapeutic approaches. The format is based on State of the Art Lectures which will be presented by a distinguished Faculty. For this edition we have some exciting novelties, including the presentation of original submitted abstracts which will be presented in ad hoc oral and poster sessions.

We hope that the meeting will promote friendship, exchange of ideas, opinions, discussion of cases and development of research projects that would ultimately advance the field and improve the management of our patients.

I hope you will enjoy the scientific program, the medieval atmosphere of the city with its ancient University (A.D. 1088), as well as the renowned Bologna cuisine.

The following security measures will be taken to comply with the key criteria of in-presence events:

- Hand sanitisers throughout the venue;
- A Sanitising Kit including 1 mask and 1 hand sanitizing gel will be included in the congress bag.

IMPORTANT We strongly recommend the use of surgical masks or FFP2 type in our events, even if there is not currently any legal obligation.
